

Hull/Holl/Hohl DNA Project – Lineage Posting

Following the untimely 2009 death of James Reynolds Hull, who initiated the Hull/Hohl/Hohl DNA Project in 2002, the Hull Family Association (HFA) has agreed to carry on the project under the direction of its 5-member [DNA Project Committee](#).

Prior Y Chromosome DNA analysis results are [still available](#), and feature several new updates and corrections. In order to better identify the various groups that have been tested, the HFA is obtaining permission to post the lineages of donors, while omitting data on living people. We have begun this posting with Group 3, below.

We invite both HFA members and non-members to participate in the DNA Project and/or lineage posting. Please contact the [HFA Genealogist](#) if you (1) have questions or feedback, (2) if you wish to contact donors whose lineages have been posted, or (3) if you, as a DNA donor, will allow us to post your own Hull lineage.

Crewkerne, co. Somerset, England Hulls**Haplogroup I – Lineage I-1 [Formerly Lineage 1]**

Lineage "I-1" is the largest group of donors in the Hull DNA project with a common Haplotype (the set of markers which define a lineage). This group is referred to as the Crewkerne Hull Group, even though all may not descend from Crewkerne, co. Somerset, England.

About 24 donors have traced their ancestor back to the two early American immigrants, George and the Rev. Joseph Hull. Their earliest known ancestor is Richard Hull and his second wife Alice; the will of Richard Hull was proved 6 Jun 1599 in Crewkerne, co. Somerset, England. His son was Thomas "the Younger" Hull who married Joan(e) Peson on 11 Jan 1572/73 in Crewkerne. They are the parents of George and the Rev. Joseph Hull.

About 20 donors in this group suspect that they descend from George or Rev. Joseph Hull, but have been unable to prove their lineage that far back. Several descend from:

Benjamin Hull who was born 27 Aug 1740, died 11 Oct 1832 in Lincoln Co., NC; he married Sarah Hutcheson/Hutchinson
